

Ø Plastic Pallets and Plastic storage Bins

The extensive SSI SCHAEFER range of storage, order picking and transport containers includes more than 2,000 different types, models and sizes.

Practical solutions for every warehouse and production facility as well as internal and external transport and shipping. Containers from SSI SCHAEFER create order in the warehouse, optimise semi-automatic and fully automatic storage and protect the goods stored. Made from plastic or steel plate, all our products are complemented with an extensive range of accessories.
